INTRODUCTION

The chemistry conference is organized every year by chemistry division, PINSTECH, as an essential component of its scientific calendar. Like its predecessors, the 8th chemistry conference 2016 is committed to the advancement of chemistry in engineering & life sciences. The conference 2016 will be a valuable and important platform for inspiring interdisciplinary exchange at the forefront of chemistry. This will bring together academicians, chemists, engineers and bio-scientists, from all over the country and provide an excellent opportunity for the delegates from universities and institutes to interact with each other. This opportunity will help to establish research partnerships for future collaborations and also provide academic exchange of ideas with scholars.

CELS-2016 likes to promote the interaction of researchers and the sharing of ideas, experience and expertise in chemistry related fields. The event also provides opportunities to discuss recent and new findings. The event will continue the very best traditions of previous events, including a range of high-impact plenary presentations, cutting-edge invited and contributed talks and interactive poster presentations.

Registration is open for the 8th chemistry conference to be held on 1st- 3rd November 2016. The conference is jointly hosted by the Chemistry Division, (PINSTECH), Directorate of Nuclear Fuel Cycle, New Chemical Complex and Pakistan Institute of Engineering and Applied Sciences (PIEAS).

The main focus areas of this conference are:

CHEMISTRY

- Analytical/ Environmental Chemistry
- Organic/Inorganic/Polymer Chemistry
- Adsorption/ Extraction Methodologies
- Forensic Chemistry
- Nano Technologies
- Applications of Synchrotron Radiations in Chemistry
- Computational Chemistry

ENGINEERING

- Materials Engineering
- Chemical Engineering
- Process Engineering

LIFE SCIENCES

- Medicinal Chemistry
- Food Process Technologies
- Pharmacy
- Biomedical Research

The selected papers presented in conference will be published in "The Nucleus".
